

BEAT GREASE WITH **BIG DIPPER**[®]

AUTOMATIC GREASE REMOVAL DEVICES

DRY STRAINER (DSA-25-1)

The Big Dipper[®] DSA-25-1 Dry Strainer is a companion for Big Dipper units with flow rates up to 25 gallons per minute (gpm). The Dry Strainer helps simplify maintenance and reduces clogged drains caused by coarse solids build-up.

The Big Dipper[®] DSA-25-1 Dry Strainer separates and collects coarse solids such as rice, coleslaw, and other food scraps larger than 0.065 inches (1.59 mm) in diameter. The removable tray allows for easy and sanitary disposal of the collected solids directly into a trash receptacle. The Dry Strainer is made of durable plastic and offers a convenient solution for waste disposal of coarse solids.
